## PARC MEMBERSHIP FORM

**“About 40% are diagnosed early (0-3 mo.),  
when the success rate is highest.”**

Our RSD CANADA Survey finds doctors lacking in knowledge. Every doctor and health care professional must be aware of CRPS, how to recognize, diagnose and treat it. This is not happening yet. Since May 2005, PARC has been conducting public CRPS Information Nights. We plan more in 2010. Thank you for your support!

## WAYS TO HELP

**“About 66% see three or more doctors before a diagnosis.”**

Each doctor and health care professional must become aware of CRPS, how to recognize, diagnose and treat it. Early diagnosis is critical and often missed. With your help, PARC can educate professionals through education programs. PARC also supports research into better treatments and a cure for CRPS. Proceeds will go towards PARC's educational programs and research at McGill University, Montreal. Please donate what you can towards our goals.

**GIVE WHAT YOU CAN: I wish to make a donation to PARC.**
